Understanding Our Soils

Dr Cassandra Schefe

AgrSci Pty Ltd

“We believe that soils form the foundation of all agricultural production and it is the single most important asset that farmers own.”
- Dr Cassandra Schefe

Dive into the science of rice soils with Dr Cassandra Schefe, a leading soil scientist and co-owner of AgriSci. These workshops will allow you to gain practical insights into soil health, nutrient management, and strategies to enhance productivity in your paddock. Watch Dr Cassandra's invitation video at the below link
